FARM-LEVEL PROJECTS

JURISDICTIONAL INITIATIVE

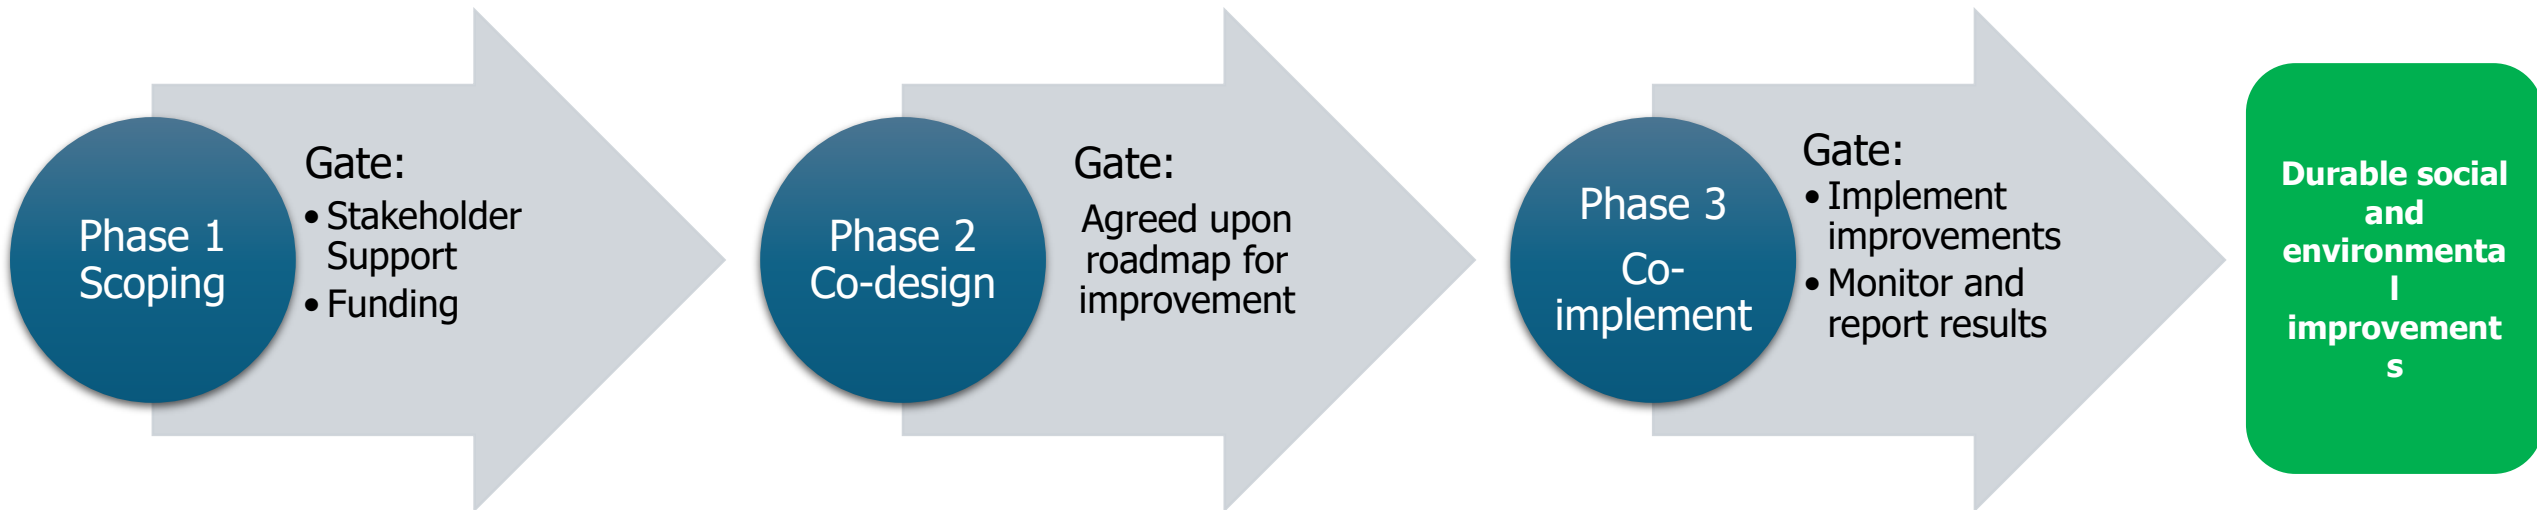

Improvement to certification

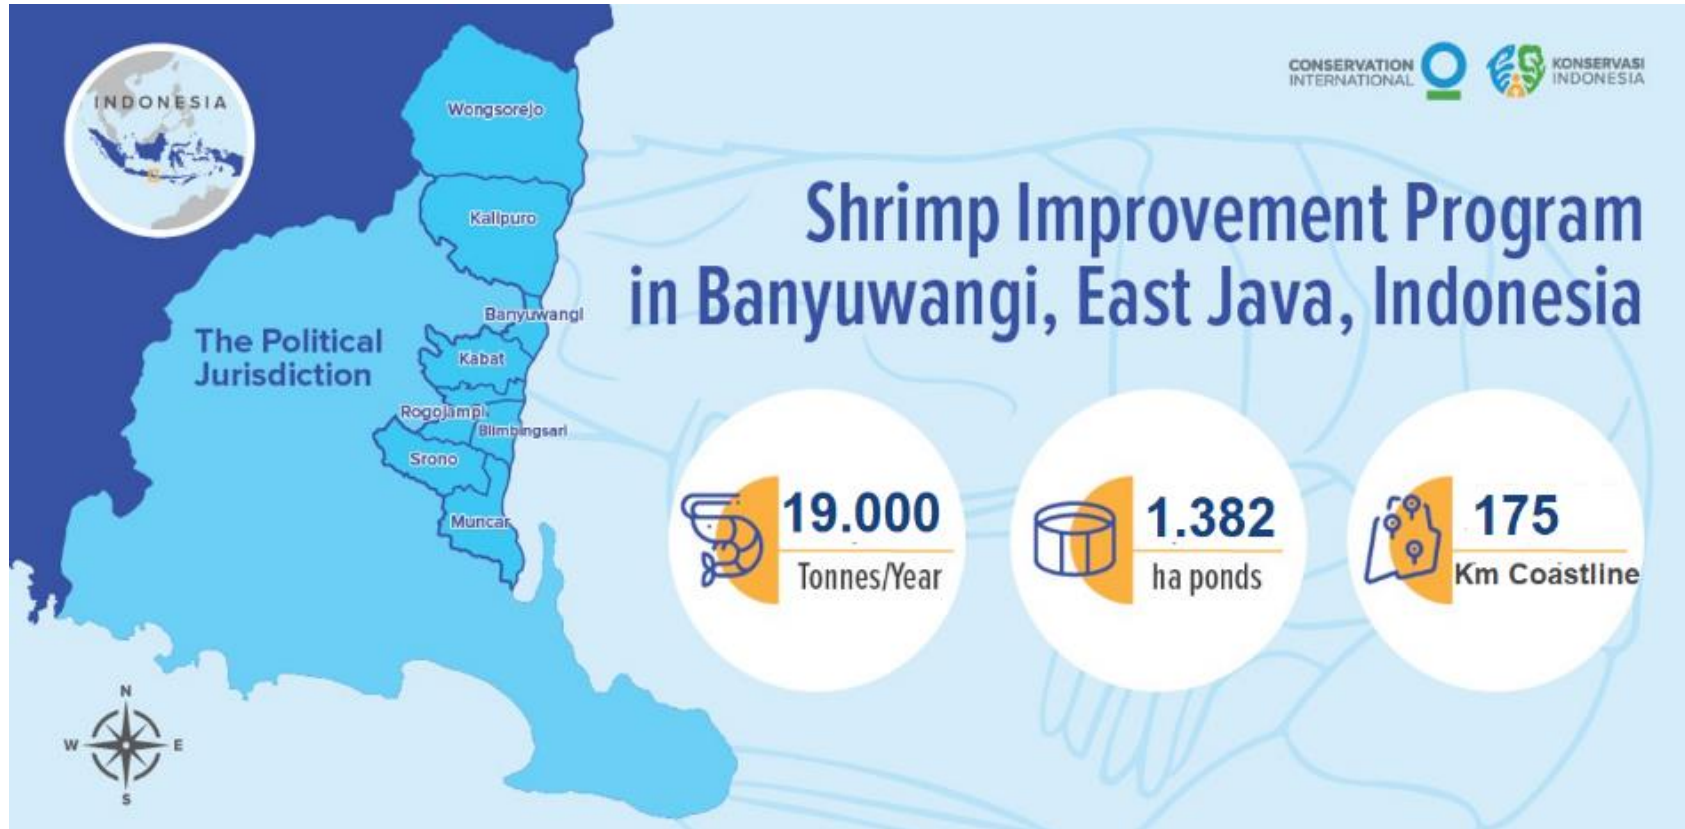

Improvement without certification

- **Place-based approach** to conservation and sustainable development.
- **Aligns policy and market incentives** to secure durable outcomes.
- Guided by **multi-stakeholder bodies** that set targets, define actions, and report on progress.
- **Achieves social, economic, and environmental objectives** through stakeholder participation and government engagement.

Process for Executing a Jurisdictional Initiative

Shrimp Improvement Program – Banyuwangi, Indonesia

In partnership with multiple stakeholder groups:

- Farmers
- Supply chain companies
- Government
- Finance and innovation companies
- Academia
